Standards Australia has published a new standard, Electrical Installations - Safety of battery systems for use with power conversion equipment (AS/NZS 5139:2019), for battery installations.

AS5139 is Australia's official safety standard governing the installation of lithium-ion and other battery energy storage systems, ensuring they are set up to safeguard people, property, and ...

Solar battery installers, designers and retailers must meet certain requirements for their systems to be eligible for small-scale technology certificates (STC) under the Small-scale Renewable ...

The objective of this document is to provide guidance to the industry on the relevant electrical safety requirements for electrical energy storage (EES) equipment.

This report details a proposed Australian Battery Energy Storage System Performance Standard for batteries connected to residential or small ...

On 3 October 2025, Standards Australia released a new technical specification for batteries: SA TS 5398:2025, Electrical Energy Storage Equipment - Safety ...

This specification is a major step forward in supporting the safe deployment of battery energy storage systems (BESS) across Australian homes ...

AS5139 is the official safety standard for installing lithium-ion and other battery energy storage systems. It ensures these systems are installed in ...

This document explains restrictions which apply to locations and proximity of equipment to Battery Energy Storage Systems. (BESS) AS/NZS 5139:2019 was published on the 11 October 2019 and ...

Australian Energy Storage Battery Standards

This guidance report has been commissioned by the Australian Energy Council to initiate and facilitate collaboration amongst its member organisations towards a harmonised leading practice approach for ...
