Installing A Lithium Battery BmsInstalling The Bms B- WireHooking Up Bms Balance WiresInstalling The Bms P- WireCommon Port vs Separate Port BmsAfter you solder one end of your B- wire to the BMS, the next step is to attach it to your battery. If you have a pre-soldered BMS, then this is where you begin. The goal is to make the B- wire as short as possible. So, find a place on your battery that has enough room to mount the BMS, but make sure to take the orientation of the BMS relative to t...See more on cellsaviors Victron Energy3. Installation - Victron EnergyLeave the negative pole of the lithium battery disconnected from the system during installation. Daisy chain the battery control cables between the lithium batteries and connect the ends to the BMS port.

Installation, configuration, adjustment, alarm notification and monitoring related to the system is performed via web based BMS software. The BMS Software is run on a Linux based operating ...
