---

Achieves >95% round-trip efficiency (RTE) and 12,000+ cycles, ideal for renewable energy storage and shared grid applications. Enables 5MWh ...

In a significant advancement for sustainable energy solutions, a company in Jiangsu has successfully connected its 2MW/4MWh energy storage ...

The mobile battery truck, essentially a power plant on wheels, boasts a 2MW/4MWh energy storage capacity -- enough to power approximately 400 homes for up to 10 hours, depending ...

It integrates battery cabinets, lithium battery management systems (BMS), and container dynamic environment monitoring systems, and can integrate storage batteries according to customer needs, ...

China's 2MW mobile battery truck represents a significant step forward in mobile energy storage technology. This innovative solution has the potential to transform disaster response, grid ...

Chinese energy technology company Sunwoda has introduced the world's first 10-meter-class, 2MWh liquid-cooled mobile energy storage vehicle at ESIE 2025.

Called the MESS 2000, this massive battery-carrying truck was showcased at the 13th Energy Storage International Summit & Exhibition (ESIE2025).

We integrate research and development, production, and sales of lithium battery packs, serving solar energy, wind energy, intelligent charging equipment, and ...

Sunwoda's MESS 2000 is a groundbreaking advancement in mobile energy storage, setting itself apart from conventional solutions with its ...
