NEXUS unites 13 partners from 9 countries to develop stable 2-terminal perovskite-silicon tandem cells and modules. With >33% efficiency targets and solvent-free eco-design, the ...

The selected projects are distributed in 18 countries: Belgium, Denmark, Germany, Estonia, Greece, Spain, France, Croatia, Italy, Hungary, the Netherlands, Austria, Poland, Portugal, ...

The European Bank for Reconstruction and Development (EBRD) announced on Friday (17 November) that its first project with the InvestEU programme will finance the construction of three ...

A device for the non-contact detection and characterisation of defects in silicon-based solar cells and modules is being developed using photoluminescence, electroluminescence and infrared thermography.

Regulatory inaction on grid fees has stalled 3.5 GW of large-scale renewables in Croatia, mostly solar, with developers such as Solvis citing a lack ...

The groundbreaking ceremony for Croatia's largest photovoltaic power project, to be constructed by Chinese companies, was held Thursday in ...

The Croatian Energy Market Operator (HROTE) awarded premiums for solar and hydropower plants with a total capacity of 420 MW. No wind farm ...

The project will invest in the construction of 3GW perovskite photovoltaic modules and 1200 tons of perovskite materials per year, and simultaneously plan project of 30GW perovskite modules, the ...

In this context, the EU-funded PERSEUS project will develop and demonstrate three large-area PSC architectures suitable for industries such as floating photovoltaics, building ...
