In addition to the Baldwin Generating Station, the Havana Power Station, Hennepin Power Station and Vermilion Power Station, Wood River Station were involved in the settlement.

OverviewSyndromeLocationsHistory of investigationsOther responsesSee alsoHavana syndrome, also known as anomalous health incidents (AHIs), is a disputed medical condition. Starting in 2016 in about a dozen overseas locations, U.S. and Canadian government officials and their families reported symptoms associated with a perceived localized loud sound. The symptoms lasted for months and included disabling cognitive problems, balance problems, dizziness, insomnia, and headache...
