Huawei has filed a patent for a solid-state battery with extremely a high energy density and charging speeds.

Huawei is developing a solid-state EV battery it says can deliver 1,800 miles of range after a five-minute charge. The project appears in a 2023 patent filing, suggesting it has been in ...

By pursuing solid-state battery development, Huawei joins a growing list of global automakers and tech companies such as BMW, Mercedes-Benz, ...

Huawei's roadmap assumes those costs fall by an order of magnitude as production scales beyond 1 GWh. Rather than building its own ...

Huawei is the latest in a growing list of automakers and tech companies that are exploring the possible benefits of fitting an EV with solid ...

Chinese telecom giant Huawei has filed a patent for a sulfide-based solid-state battery that claims to deliver a driving range of up to 3,000 kilometers ...

Huawei has stepped up its ambitions in advanced energy storage with a patent for a sulfide-based solid-state battery that offers driving ranges of up to 3,000 kilometres and ultra-fast ...

The Chinese technology giant Huawei has filed a groundbreaking patent for a next-generation electric vehicle (EV) battery, significantly intensifying the global race for solid-state ...
