ASTANA, Kazakhstan (MNTV) -- Kazakhstan is positioning itself as a key player in the global electric vehicle (EV) supply chain, with researchers developing the capacity to manufacture ...

Two lithium processing facilities will begin construction in the Ulan district of the East Kazakhstan region by 2029, according to regional governor ...

Discover how Kazakhstan is leveraging rechargeable energy storage systems to stabilize its grid, support renewable energy adoption, and meet growing industrial demands.

Kazakhstan's rechargeable energy storage battery sector isn't just keeping lights on - it's powering smart cities, enabling clean mining, and bringing electricity to remote yurts.

Kazakhstan is a major global supplier of both uranium and titanium. It also holds 2% of world nickel reserves, but has, for now, a negligible share in ...

With regard to lithium-bearing hydro-mineral resources of the Republic of Kazakhstan, the situation is more complicated, due to the data limitations on the completeness of formation water testing and the ...

Within the Republic of Kazakhstan, ore deposits of scapolite pegmatites and lithium-bearing greisens-hydrothermal growths are known along alkaline granites.

With the increasing need for reliable and sustainable energy solutions, there is a growing demand for innovative battery technologies and grid-scale storage projects in Kazakhstan, presenting a ...

In the future, there will be automation of the technological process as production volumes increase, organization of production of polymer components, which are currently being purchased, and ...
