Browse our products and documents for EcoStruxure(TM) Microgrid Flex - Configured-to-order microgrid control system.

A microgrid not only provides backup for the grid in case of emergencies, but can also be used to cut costs, or connect to a local resource that is too small or unreliable for traditional grid use.

We're excited to unveil our new 1MW Static Transfer Switch (STS) Cabinet, a powerful upgrade designed to simplify system design and enhance stability for commercial and industrial microgrid...

The LES - 100W50 is a mid - size microgrid cabinet that comes with a 204.8V battery (0.5C charge/discharge) and a 57.2kW AC output. It leverages liquid ...

The ARC Pro Cabinet is the most capable and durable hardware option for the ARC microgrid control solution. The ARC Pro includes an active cooling system that allows for installation in more extreme ...

OASIS L241 can form a microgrid system with inverters, photovoltaic arrays, loads, diesel generators, etc. which is widely used in remote mountain areas, areas without electricity, islands, ...

ery energy storage or fuel cells. ABB s microgrid package allows users to optimize genset usage to prevent partial load, to increase efficiency, and to reduce fuel

Compatible with solar PV, diesel generators, and grid power, it provides stable energy for microgrids, remote areas, manufacturing facilities, farms, and EV charging stations.

A heavy - duty microgrid cabinet built to meet extreme power demands. It boasts a battery voltage of 832V, a grid - connected output of 330kW, and a maximum PV input of 4750A.
