We also create a livelihood for more than 600 villagers whom we have trained to become caretakers of our distributed solar power plants. We have also indirectly ...

For the 248 local families in the Kan Byin community, the solar mini-grid now lights up their homes for their children to study, has improved refrigeration to keep food and medicine fresh, ...

It documents the experiences and lessons from 12 mini- grid systems using renewable energy for enhancing off-grid energy access in Myanmar as well as training materials from various capacity ...

Solar tech leader Solis is making waves in Southeast Asia with its new energy solution -- an off-grid Battery Energy Storage System (BESS) in ...

This report presents the recent dynamics in both on-grid and off-grid electricity generation to understand the complexities related to the performance of the power sector in Myanmar.

Event participants visited two villages in central Myanmar - Myin Chi Naing and Ton Lon - that are away from the country's main grid and are ...

The project Solar mini-grids are a viable alternative to unsustainable energy solutions for many communities in Myanmar. They provide clean, reliable, and affordable energy that can be used by ...

Solis, a global leader in renewable energy, has successfully deployed an advanced off-grid Battery Energy Storage System (BESS) in ...

While Myanmar has tremendous solar resources and vast hydro potential, the dependency on fossil fuel generators by Small and Medium Sized Enterprises (SMEs) is very high.

Myanmar off-grid solar power generation system

SolaRiseSys (SRS) is founded in 2010 as a Solar Energy Company in Myanmar. SolaRiseSys designs, manufactures and installs a complete line of solar power generating systems.
