MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

The 200kVA/300kWh energy container, when connected to the grid, can offer additional power thanks to its energy storage system in lithium-ion batteries. This technical device controls the charging and ...

It integrates battery storage, PCS, and energy management, supporting multiple work modes such as peak shaving, load shifting, energy storage, backup power. ...

Cummins Power Generation BESS solutions are available in two architectural designs: a 10ft container (200 to 400kWh) and a 20ft high cube ...

Each container with all of the equipment will weigh less than 16 tons. Fully tested before being shipped. Factory will provide free installation support and after ...

Our containerized and trailer-mounted lithium battery systems are built to replace diesel generators with zero-emission, high-capacity electric power.

The lightest and most portable of our Energy Storage Systems, the ZBP 2000, which is built to small events, small construction sites, and is especially useful for powering small electric tools.

The C& I ESS Battery System is a standard solar energy storage system designed by BSLBATT with multiple capacity options of 200kWh / 215kWh / 225kWh / 245kWh to meet energy needs such as ...

Discover the SRBOX-200, a high-voltage battery storage solution with up to 200 ...
