By using this service, users can see the patent family for a specific application, containing all related applications filed at participating ...

This patent search tool allows you not only to search the PCT database of about 2 million International Applications but also the worldwide patent collections. This search facility ...

The photovoltaic bracket is a special bracket designed for placing, installing and fixing the solar panel.

This application belongs to the field of photovoltaic technology, and in particular relates to a flexible photovoltaic bracket and a flexible photovoltaic system.

[0002] The present application relates to the technical field of photovoltaic assemblies, for example, to a photovoltaic assembly support system.

Abstract Brackets for photovoltaic ("PV") modules are described. In one embodiment, a saddle bracket has a mounting surface to support one or more PV modules ...

The foldable photovoltaic bracket has small occupied area and convenient disassembly and assembly, can block rain and snow, and ...

[0001] The present disclosure claims priority to Chi-nese Patent Application No. 202210312948.5, filed with the China National Intellectual Property Administration (CNIPA) on Mar. 28, 2022, ...

A mounting bracket for mounting a photovoltaic module can provide support for the photovoltaic module while isolating the module from direct contact with the frame.

U.S. patent number 9,813,020 [Application Number 15/231,218] was granted by the patent office on 2017-11-07 for bracket for connection of a junction box to photovoltaic panels.
