Design, Engineering, Procurement & Supply, Construction & Erection, Testing, Commissioning and Comprehensive Operation & Maintenance (O& M) for 10 (ten) years of SCCL's 10 MW FSPV project ...

Based on an average power consumption of a 4-person household of 4000 kWh per year and a location in Southern Germany, the solar container can supply ...

We design a solar container that fits your needs and send you a personalized quote.

Please describe the unique services and benefits that distribution-connected energy storage systems can provide over transmission-connected energy storage systems.

All energy systems are equipped with a solar array, batteries, inverters, and the option to add an integrated generator. The MiniBox microgrid solution can ...

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Containers share common monitoring through MOBICARE(TM) and can be configured for load sharing or redundancy. This modular approach suits large construction ...
