The SlimLine Series cabinets are designed for outdoor or indoor projects and ...

This 125kW all-in-one liquid-cooled solar energy storage system ...

Solar power generated remotely is purchased through virtual or synthetic power purchase agreements, through community solar projects, or directly from a utility. This Design Guide focuses on developing ...

The enclosures are specifically approved for use in solar power systems, designed in one piece monobloc, which provides excellent protection for inside electrical and electronic components.

These cabinets are UV-resistant aging, corrosion-resistant, acid and alkali resistant, wind-resistant, waterproof, and shock-resistant, with a more robust and durable structure.

Our IP66 enclosures offer the highest protection against particles and a high level of protection against water. Following strict IP66 standard protection rating rules, these enclosures stringently adhere to ...

A high protection class battery cabinet that can be applied as standalone or extension of outdoor power system. The system integrates temperature control and ventilation system, heater ...

The SunWize Power UPS Cabinets are targeted for battery backup system applications. These white powder-coated aluminum enclosures feature hinged, key lockable doors with dust covers on locks ...

A high protection class battery cabinet that can be applied as standalone or extension of outdoor power system. The system integrates temperature control ...

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.
