EcoDirect designs and supplies solar + battery projects in the Dominican Republic. Our team has the tools and experience to get your next project designed and delivered.

As a leader in renewable integration, EK SOLAR provided modular battery solutions for the Santo Domingo project. Their containerized systems enable rapid deployment while meeting strict safety ...

HJ-SG Solar Container provides reliable off-grid power for remote telecom base stations with solar, battery storage and backup diesel in one plug-and-play solution.

From stabilizing solar farms to keeping lights on during storms, energy storage containers are rewriting Santo Domingo's energy rules. As battery prices keep falling (19% drop since 2021), there's never ...

Integrate solar, storage, and charging stations to provide more green and low-carbon energy. On the construction site, there is no grid power, and the mobile energy storage is used for power supply. ...

The facility combines 16 MW of solar generation with a 10 MW/20 MWh lithium-ion battery energy storage system, connected to the national grid operated by Senelec under a 20-year take-or-pay ...

The project involves setting up a 5.3 km transmission line to connect the solar plant to the Maranatha 69 kV substation and a 500m² solar hybrid greenhouse to demonstrate solar power's role in sustainable ...

Containerized energy storage seamlessly integrates with solar and wind power projects, addressing the intermittent nature of renewable energy sources. This integration enhances grid stability and ...

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of 20+ ...

Santo Domingo Solar Containerized Grid-Connected Type

Este Cabreto I Solar PV Park is a 55MW solar PV power project. It is planned in Santo Domingo, Dominican Republic. According to GlobalData, who tracks and profiles over 170,000 power ...
