The Midnite Solar MNSPD-600 is a 600V DC lightning and surge arrester designed to protect solar systems from surges, ensuring durability and system safety.

MidNite Solar Surge Protective Device (MNSPD): Engineered for both indoor and outdoor use, our Type 1 SPD safeguards AC and DC systems, including ...

MidNite Solar MNSPD protects AC/DC systems and electronics from surges, indoor/outdoor rated, available in 300AC, 300DC, and 600V.

Protection is achieved by reducing the clamping voltage to a safe level that your system can sustain without damaging any electronics in the system. The MNSPD is designed to clamp a 115,000 amp ...

Shop solar lightning arrestors designed to protect PV systems from lightning-induced voltage spikes and electrical surges.

The MidNite Solar Surge Protector Device (MNSPD) is a Type 1 device per UL1449 rev3. It is designed for both AC and DC systems and provides protection to ...

It safeguards grid-tie PV combiners and inverter input circuits. Designed for both ...

The AC surge protector reduces faults in inverters, and other electrical appliances caused by electrical surges on the AC cabling of the solar system. Electrical surges can occur on the AC, DC and ...

It is a 600V Surge Protector Device (MNSPD) is a Type 1 device designed for indoor and outdoor applications. Engineered for both AC and DC electric ...
