Rooftop solar installers are steering customers toward leases instead of purchases. Federal tax credits for purchased systems have ended but are still available for leased ones.

Here's the truth: all photovoltaic panels are solar panels, but not all solar panels are photovoltaic. That's where most people get confused, and it's exactly why we're writing this blog.

Solar energy is a rapidly growing market, which should be good news for the environment. Unfortunately there's a catch. The replacement rate ...

DENVER -- Hours after the sun set in Colorado on Thursday, state lawmakers voted to advance a piece of legislation that supporters believe will make solar power more accessible and ...

Increasingly, these narratives are having real-world consequences, with governments restricting or even banning the installation of solar panels across ...

The DOE solar office addresses some common myths and misconceptions about solar energy and the installation process.

This guide explains what makes solar renewable, how it compares to nonrenewable sources, and why it remains one of the best energy solutions ...

Solar panels, which are sometimes referred to as photovoltaic (PV) panels, are panels that consist of solar cells that are used to collect and convert ...
