The project is located on approximately 2,670 acres of land administered by the U.S. Department of Interior, Bureau of Land Management, California Desert District, within the jurisdiction of the Barstow ...

Power plant details for Silver State Solar Power North, a solar farm located in Goodsprings, NV. View the monthly generation and consumption, generator details, and more for Silver State Solar Power ...

OverviewDescriptionFossil fuel consumptionEconomic impactPerformanceEnvironmental impactsIn popular cultureExternal linksThe Ivanpah Solar Electric Generating System is a concentrated solar thermal plant located in the Mojave Desert at the base of Clark Mountain in California, across the state line from Primm, Nevada. It was slated to close in 2026, but that decision has been reversed by the California Public Utilities Commission. The facility derives its name from its proximity to Ivanpah, California, which lies within the Mojave National Preserve

Click on Locations on Map or in the Table Below for Details of Each Plant. An official website of the State of Maryland.
