Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and ...

The system features no high-voltage box design, enhancing structural compactness, and supports off-grid independent operation with 100% three-phase unbalanced load capability.

Unveiling a robust 100KW/215kWh energy storage system ideal for large-scale commercial and industrial use. Experience enhanced grid stability, ...

Housed in a robust, Australian-made weatherproof enclosure, SkyBox+ acts as the central "brain" of the energy system--managing solar generation, battery charging, grid interaction, and ...

This hybrid energy storage system CHS2 seamlessly integrates solar power generation, battery storage, and intelligent management for off-grid and on-grid CHS2 operation.

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, ...

On the off-grid side, they address power needs in remote areas, supporting forklift charging, server operation, and other critical tasks. Additionally, our products excel in peak shaving, ...

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure the safety of the energy ...

SLENERGY provides advanced energy storage cabinets with intelligent control, high safety, and long-term performance for commercial and industrial power applications.

Three-phase intelligent energy storage cabinets for remote areas

It not only offers the benefit of a more manageable size, it also offers future scalability and is ideal for commercial premises, factories, hotels, and ...
