Hydroelectric generators produce electricity by harnessing the force of running water. This may seem like a novelty or impractical for home use, but ...

AQWatt converts your old private water mill to enable it to generate electrical power, whilst preserving the charm and historical prestige ...

There is a great deal of interest today in using such renewable energy sources as solar power, wind, biomass, and flowing water to produce power to run farm ...

For generating energy in rivers at remote communities, Oryon Watermill has developed a semi-submersible installation that can generate ...
