Shanghai-based Envision Energy unveiled its newest large-scale energy storage system (ESS), which has an energy density of 541 kWh/m², ...

Form Energy is nearly ready to go public and scale up with its 100-hour battery storage systems.

Touted as the world's largest supercapacitor-based installation, the facility combines a 58 MW/30-second supercapacitor array with 42 MW/42 MWh ...

The Moss Landing Energy Storage Facility, the world's largest lithium-ion battery energy storage system, has been expanded to 750 MW/3,000 ...

With a capacity of 3,000 MWh and 750 MW power, it is the largest active battery storage system in the world to date. The facility uses lithium-ion ...

Google is building a bevy of renewable energy in Minnesota--including the world's largest battery system providing power for a whopping 100 hours

Google is developing a large renewable energy project in Minnesota, which will be backed by what will be the world's largest long-duration battery storage facility. The project, which has been...

China brings online 300 MW/1,200 MWh grid-forming energy storage facility in Inner Mongolia, integrating lithium-ion and vanadium flow battery technologies.

Owner Vistra Energy has announced the completion of work to expand its Moss Landing Energy Storage Facility in California, the world's ...
